

EAS Document 2

SAGE ENDEC specific configuration:

- Server name: MyState-ID [or as desired... name is for user convenience]
- Server type: Type 1
- Server Base URL:
<http://mystateusa.com/CapService.svc/GetEasFromStartDate/?&username=%%USER%%&password=%%PASS%%> (put all of the above on one line with no spaces)
- Enter username and password as provided by MyStateUSA
- Poll Rate: 30
- Only check the following boxes:
- Enable Polling
- No SSL check
- MISC SAGE TIPS
- The "CAP OK" Indicator isn't a reliable indicator that all is well. The most important indicator is that you are actually receiving alerts. Other useful clues can be found on the web interface under "Tools" and "WGET LOG".
